Presbyterian Pastor Dave Wilkinson tells a hilarious story about Randy Johnson, a former quarterback for Oklahoma State University. Randy is a nephew of the late President Lyndon Johnson.

It had not been a good year for Randy Johnson or the Oklahoma State team. And, to top it off, for the last game of the year, they faced the mighty Oklahoma Sooners. The game with the Sooners was almost over. The Cowboys of Oklahoma State were behind by six points. They had the ball, but there was time for only one play. They were on their own twenty yard line, eighty yards from the goal line.

The coach evidently thought the game was hopeless. He called time and put in all the seniors for the last play of the game so they could say they ended their college football careers on the field. He told Randy to call any play he wanted, since in the coach's estimation, they had zero chance of scoring. To the surprise of his teammates, Randy called play 13. It was a trick play that had never been used before in a game. It had never been used for good reason--it had never worked in practice.

Well, the impossible happened! Play 13 worked! At the very last second Oklahoma State scored! The fans went wild. As they carried Randy off the field, his coach asked him, "why in the world did you ever call play 13?"

Randy answered, "Well, we were in the huddle, and I looked over and saw old Harry with tears running down his cheeks. It was his last college game and we were losing. And I saw that big number 8 on his chest. Then I looked over and saw Ralph. And tears were running down his cheeks too. And I saw that big number 7 on his jersey. So, in honor of those guys I added 8 and 7 together and called play 13!" "But Randy," the coach shouted, "8 and 7 don't add up to 13!" Randy reflected for a moment and answered with a smirk, "you're right coach! And if I had been as smart as you are, we would have lost the game!"

I guess the moral of this story is that sometimes you need more than knowledge to win a football game. Knowledge will only take you so far. ---

Pastor's Page Continued

There is much in this world that no one knows or understands. We are all somewhat like Albert Einstein's wife. Someone once asked her if she could make sense of her husband's theories. She replied that she understood the words, but not always the sentences.

And that is the position that each of us are in, too. No matter how brilliant, or well educated, or how insightful we may be, when it comes to making sense out of life, we can usually understand the words, but we don't always understand the sentences. There is much in this world we do not understand. And the situation is getting worse. Today, human knowledge is expanding so rapidly that no one can catch up with it.

"By the time the child born today graduates from college, "says one expert, "the amount of knowledge will be four times as great. By the time the same child is 50, it will be 32 times as great—and 97 percent of everything known in the world will have been learned since that child was born."

The memorizing of reams of facts will not be necessary, says this expert; these facts will be quickly available on our computers. But in the future, we will need more knowledge if only to know what it is we want to know. (2)

Let us give thanks to God that we are not saved by our knowledge. In 1 Corinthians 1:27, St. Paul writes, "God chose what in the world is foolish to put the wise to shame..."

We are not saved by what we know, for then only the most educated and knowledgeable among us could gain entrance into God's kingdom. We are saved, not by knowledge, but by Christ, Faith and Grace.

No tuition necessary. But --- the question must be asked --- are we passing this legacy on?!

Love,

Pastor Trout

Happy Thanksgiving

"I have never understood why anyone would roast the turkey and shuck the clams and crisp the croutons and shell the peas and candy the sweet potatoes and compote the cranberries and bake the pies and clear the table and wash the dishes and fall into bed exhausted when they could just as easily sit back and enjoy a hamburger or a pork sandwich."

- Twine
- Twigs

What you do:

1. Punch two holes in the top of the cardboard.
